

Building a Sustainable Global – Glass Industry Workshop

Fawcett Center for Tomorrow

Monday November 3, 2008

9:00 a.m. to 4:00 p.m.

Agenda

09:00	Introduction	Michael Greenman, Executive Director GMIC
09:15	Technology Challenges the	Glass Industry is Facing Now and in the Future John Brown, Technical Director GMIC
09:45	_	for Glass Melting Processes, Energy Efficiency, t Recovery and Glass Recycling in Europe Prof. Dr. Ir. Ruud Beerkens (TNO Science and Industry, Senior Scientist)
10:15 Break	\$	
10:45	CO ₂ Emissions Trading in I	Europe and Possible Alternative Approaches Guy Tackels – (Saint Gobain) – Environmental Director for Glass Melting
11:15	Glass & Environment: Spre	ading Good News John Stockdale – Environmental Manager, British Glass Manufacturer's Confederation
11:45 Lunch		
	Keynote Speaker – "Resilient Today Sustainable Tomorrow" Dr. Joseph Fiksel – Director, Center for Resilience OSU)	
12:30	Activities by the International Commission on Glass on Behalf of the Global Glass Industry	
	•	Rene Vacher – Professor, University of Montpellier)

The MatWerk Roadmapping-Project – Developing a Strategy for Materials Science in Germany – Preliminary Results for a Glass Materials Roadmap	
Klemens Joachim – Research Associate, University of Kassel	
Glass Users – Panel Discussions	
Energy Productivity – Our Greatest Threat or Biggest Opportunity Peter Garforth – President, Garforth International	
Vision(s) for the Glass Industry - Possible Alternative Futures 2002 - "The Good, The Bad, and the Ugly" Warren Wolf - President, WWW Ir. Services	

3:00 Conclusion: Facilitated discussion and recommendations for industry, association, university actions.

4:00 Close
